

January 1<sup>st</sup>, 2017

Westland Greenhouses would like to invite you to participate in our annual spring fundraising program to assist you with raising funds for your school or organization. As a local business we want to reach out to local groups to help with fundraising opportunities.

Our spring fundraising program is very simple and profitable. Westland will design a unique certificate valued at \$29.99 that is redeemable for a hanging basket for your school or organization. Your members sell the coupons to your local community at a cost of \$29.99 (tax included). Westland will make a list of every coupon redeemed at our store, and will send a bill to your organization at the end of the basket season for \$25.00 per basket (tax included).

This is a very simple fundraiser because you 1) print and number the coupons and 2) sell them to your community. The customer comes to the greenhouse to pick up the product; eliminating the need for having goods dropped off to your organization and arrangement of pick-up by your fundraising participants.

If your school or organization decides to choose Westland for your holiday fundraising program, simply call Westland and confirm that you would like to participate.
